Our AI Charter

At HSF Kramer, we are committed to harnessing the transformative power of artificial intelligence while maintaining high standards of legal excellence, ethical conduct and client service. Our approach is guided by the following principles for the responsible development, deployment and governance of AI systems across our global practice.

1

Human-centred AI

AI systems we design and/or deploy will complement and augment human expertise and align with our values

4

Transparency and Traceability

We are committed to being transparent about our AI use with clients and colleagues. We prioritize tools with traceable decision paths and implement governance appropriate to each use case.

2

Compliance with Legal and Professional Standards

Our people will remain accountable and responsible for AI assisted work product as part of our delivery of our legal services.

5

Privacy and Security

We will ensure that the AI systems we use meet our privacy and security standards.

3

Accountable and Reliable AI

We will ensure our AI systems are reliable, safe, and compliant with our Principles. We will monitor inputs, outputs, and performance, and maintain appropriate human direction throughout the AI lifecycle

6

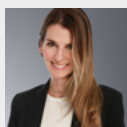

Continuous Improvement

We will regularly review our AI systems and governance to ensure ongoing alignment with our values, including our commitment to diversity and inclusion, client needs, and evolving legal and ethical standards.
